Spain Did Not Participate In the Maine Disaster.

MAINTONOMAH AND KATAHDIN.

Two Ironclads Ordered Into Commission Why the Maine Was Tied to a Bouy. Court of Inquiry Still Close Mouthed - McKinley's Close Friend Talks of War.

Washington, March L.-The main interest in connection with the Maine inquiry yesterday centered in a statement by Secretary Long following the cabinet meeting, that in his personal opinion any official participation by the Spanish government in the blowing up of the Maine was now practically eliminated from the situation. This statement was not of a formal or official character, and was made by Mr. Long as he walked away from the white house. As usual the various cabinet officers were besieged with inquiries as to the questions before the cabinet meeting and in response to these importunities the secretary rather casually summed up the situation in a few words, stating that most of the time had been given to the outrages on colored postmasters in the south. Naturally the Cuban situation had been gone over, he said, but there were no actual developments, and he felt that public excitement over the subject had materially abated. Then he added the statement, in the same passing way, that any participation by the Spanish government in the blowing up of the Maine was practically eliminated in his judgment.

Ordered Into Commission,

Orders went out from the navy department late yesterday afternoon to put the ironclads Miantonomah and Katahdin into commission on the 10th inst. They are now at the League Island navyyard, where they have been laid up for a year or two past. It is said at the department that the purpose of putting them in commission is to make berths for the survivors of the Maine, now at Key West waiting on the court inst. The Miantonemah is a formidable double-turreted monitor, carrying

The Katahdin is a ram pure and simple, having in the way of weapons of offence nothing except her sharp steel beak and a few small rapidfire guns to keep off boarders or torpedoboats.

Why the Maine Was Tied to a Buoy. It was just learned at the navy department why the Maine was tied to a bony in Havana harbor instead of anchoring, a fact that has been the base for some of the theories as to the cause of the disaster. It is stated that not only is a man-of-war at a buoy in a much better place for quick service than when anchored, but it appears that if a ship casts her anchor in Havana harbor, so foul and polluted with yellow fever and other disease germs is the mud that adheres to it when it is hoisted, that the ship must go into quarantine upon her return to any Florida port.

The following telegram was received from Captain Sigsbee, now at Havana: Bache has left for Tortugas with all the wounded men-five in number-as follows: Mattison, Cabill, Allen, Webber and Mack. All able to walk except Mattison, whose jaw was broken. Bache takes one unrecognized body. Will probably take four wounded men from Tortugas to Key West. Bache will report to the flagship Thursday before entering Key West. Cannot tell when more bodies may be expected at Key West, but Bache should promptly retarn."

Filling Navy Department Orders. New Haven, March 2.-Thomas G. President Farms Says They Are Preparlng For a Strike,

Columbus, O., March 2 .- The refusal of the Hocking valley and other operators to sign the agreement made at the interstate convention at Chicago will probably precipitate another strike of Ohio miners. President Farms of the Ohio miners has been in this city and stated emphatically that there would be a suspension in the Hocking valley and Jackson county unless the operators agree to pay the new scale. He stated just as emphatically that the miners are preparing for a struggle, and intimated that the belief prevailed among them that the Hocking operators would never agree to sign the scale as drawn up at the Chicago conference.

Spain Did Not Participate In the Maine Disaster.

MAINTONOMAH AND KATAHDIN.

Two Ironclads Ordered Into Commission. Why the Maine Was Tied to a Bouy. Court of Inquiry Still Close Mouthed - McKinley's Close Friend Talks of War.

Washington, March L.-The main interest in connection with the Maine inquiry vesterday centered in a statement by Secretary Long following the cabinet meeting, that in his personal opinion any official participation by the Spanish government in the blowing up of the Maine was now practically eliminated from the situation. This statement was not of a formal or official character, and was made by Mr. Long as he walked away from the white house. As usual the various cabinet officers were besieged with inquiries as to the questions before the cabinet meeting and in response to these importunities the secretary rather casually summed up the situation in a few words, stating that most of the time had been given to the outrages on colored postmasters in the south. Naturally the Cuban situation had been gone over, he said, but there were no actual developments, and he felt that public excitement over the subject had materially abated. Then he added the statement, in the same pass-ing way that any participation by the ing way, that any participation by the Spanish government in the blowing up of the Maine was practically eliminated

in his judgment. Ordered Into Commission,

Orders went out from the navy department late yesterday afternoon to put the ironclads Miantonomah and Katahdin into commission on the 10th inst. They are now at the League Island navyyard, where they have been laid up for a year or two past. It is said at the department that the purpose of putting them in commission is to make berths for the survivors of the Maine, able double-turreted monitor, carrying hour. In addition to her main battery ries a good se rapid-fire guns and her turrets are clad with 1114 inch armor.

Her commander has not yet been definitely settled, but the remainder of her officers will be as follows: Lieutenant Commander Wilson, executive officer; Lieutenant Underwood, navigator; Lieutenants Hogg and Gill and Ensign Coleman, watch officers; Past Assistant Surgeon Weaver, Chief Engineer

The Katahdin, otherwise known as the Ammen ram, is a freak in naval architecture and, although opinions are divided as to her qualities, there is little doubt that her presence in any harbor would make an enemy anxious. She lies mostly under water, with a turtleback of steel varying in thickness from

In action the Conning tower and smokestack are about all of the ship that would present a mark. The former is made of steel 18 inches thick. The Katahdin is a ram pure and simple, having in the way of weapons of offence nothing except her sharp steel beak and a few small rapidfire guns to keep off boarders or torpedoboats.

Why the Maine Was Tied to a Buoy. It was just learned at the navy department why the Maine was tied to a bony in Havana harbor instead of anchoring, a fact that has been the base for some of the theories as to the cause of the disaster. It is stated that not only is a man-of-war at a buoy in a much better place for quick service than when anchored, but it appears that if a ship casts her anchor in Havana harbor, so foul and polluted with yellow fever and other disease germs is the mud that adheres to it when it is hoisted, that the ship must go into quarantine upon her return to any Florida port.

The following telegram was received from Captain Sigsbee, now at Havana: "Bache has left for Tortugas with all the wounded men-five in unmber-as follows: Mattison, Cabill, Allen, Webber and Mack. All able to walk except Mattison, whose jaw was broken. Bache takes one unrecognized body. Will probably take four wounded men from Tortugas to Key West. Bache will report to the flagship Thursday before entering Key West. Cannot tell when more bodies may be expected at Key West, but Bache should promptly retarn."

Filling Navy Department Orders. New Haven, March 2.-Thomas G. Beanett, president of the Winchester Repeating Arms company, denies the truth of a published report that his company had suspended the manufacture of sporting guns in order to fill a government order. Mr. Bendett said: "It is true we are running over time in some departments and we are filling heavy department orders, but these orders were received prior to the sinking of the MONEY DUE HIS WIFE.

singular damage suit just ended in court here. James Long sued the estate of Mrs. Matthias Frantz for \$1,600, alleging that that sam was due him for the services of Mrs. Long as nurse during the last illness of Mrs. Frantz. Mrs. Frantz died of blood-poisoning, and while nursing her Mrs. Long contracted the same disease and died from the effects of it not long after. The trial lasted three days. The jury gave Long just one-tenth of what he asked.

POLITICAL BREVITIES.

It is now less than a week before the city republican primary, in which time the candidates, all of whom are worthy men, will see numerous republicans.

Some democrats in the county are saying that if D. H. Lubker, the hold over chairman, had had his own way the county committée would have been reorganized. His neighbors have been his most powerful advisers.

Frequently during the civil war Presdent Lincoln had occasion to refer to the preservation of the Union, but never did he say anything about the union of the democratic party, for which Candidate Arbuckle pleads.

* * The man who was to have nad the democratic nomination for councilman in the first ward is finding out that the previous promises he had made to him will probably not mean anything at the primary.

In that famous interview of candidate Arbuckle's he refers to the part President Lincoln took in the work of reconstruction, as if the great Emancipator was president all during that period. Consult your history.

As to Road Building.

cur county in the mode of building Houston. roads. It is a great mistake to have the farmers work out their road tax in the fall of the year. To do road grading, the dirt put on a road in the fall is a disadvantage to it, as there is not time for it to pack before the wet season and freezing and thawing sets in, It is also questionable policy to build so many miles of Macadamized roads at once and pay for same by issuing long running bonds to provide for the payment of principal and interest, necessitating a heavy tax levy for several years; and as the bonds are usually disposed of in large blocks to eastern capitalists, (the ble. smaller home investor having no chance at them) nearly all the interest goes

The tickets will contain the names of all the republican candidates for mayor, marshal, treas-urer, clerk and city judge and also the ames of all candidates for councilman the respective wards.

The candidates receiving the greatest number of votes for the respective offices shall be declared the nomines of ne party and be placed on the Republican ticket to be voted for at the City lection, May 3, 1893.

Every candidate at the Primary thereby pledges himself to abide by the result and agrees to give all the nominees his hearty support. W. H. BURKLEY, Chairman

C. A. DAY, Secretary. POLITICAL BREVITIES

It is now less than a week before the city republican primary, in which time the candidates, all of whom are worthy men, will see numerous republicans.

Some democrats in the county are saying that if D. H. Lubker, the hold over chairman, had had his own way the county committée would have been reorganized. His neighbors have been his most powerful advisers.

Frequently during the civil war President Lincoln had occasion to refer to the preservation of the Union, but never did he say anything about the union of the democratic party, for which Candidate Arbuckle pleads.

* * The man who was to have nad the democratic nomination for councilman in the first ward is finding out that the previous promises he had made to him will probably not mean anything at the primary.

In that famous interview of candidate Arbuckle's he refers to the part President Lincoln took in the work of reconstruction, as if the great Emancipator was president all during that period Consult your history.

cur county in the mode of building roads. It is a great mistake to have the farmers work out their road tax in the fall of the year. To do road grading, the dirt put on a road in the fall is a disadvantage to it, as there is not time for it to pack before the wet season and freezing and thawing sets in. It is also questionable policy to build so many miles of Macadamized roads at once and pay for same by issuing long running bonds to provide for the payment of principal and interest, necessitating a heavy tax levy for several years; and, as the bonds are usually disposed of in large blocks to eastern capitalists, (the ble. smaller home investor having no chance at them) nearly all the interest goes

A REDUCTION ALL ANONG THE LINE.

The success that we have met with by reducing the price of our cabinet photographs to one dollar per dozen, has de-termined us to continue for thirty or paixty days longer, making cabinets on glossy paper equal in style, finish and durability to those made by other photographers st a much higher price.

We have also determined to make the platinum or dead finish cabinet photos hy some called carbonettes) at \$2,00 to be equal to any made in Seymour at \$3.50 to \$4.00 per dozen.

Don't be deceived by the cry of cheap materials and work, for we all use the same kind of printingout paper, and tone in the same kind of gold and aristo platinum baths. Wash our prints in the same kind of water and card and burnish them in the same way. desire to call attention to our new velvet gloss cabinets at \$1.50 per dozen that by platinums. TO SAVE HIS BROTHER.

Frank Hill Will Plead Guilty to Rob-

Chicago, March 2.-Frank Hill will go to prison to save his brother. His friends have informed the state's attorney that the young man intends to plead guilty to robbery and voluntarily accept punishment to keep his brother, Robert J. Hill, from the penitentiary. The latter is now under sentence, having been convicted of robbing a saloon. At the trial several witnesses testified positively that Robert J. Hill was one of the robbers, while two witnesses said

Frank Hill was the man.

The brothers look very much alike and it would be an easy matter to confuse their identity. It is arranged that the witnesses who identified Frank Hill during the trial shall go before the grand jury and procure his indictment. If he pleads guilty, as it is said he will, the act will release Robert J. Hill.

SHOT IN THE BOWELS.

An Auctioneer Mortally Wounds a Tobacco Dealer

Mayfield, Ky., March 2. - Samuel Clark, auctioneer and merchant, yesterday shot and mortally wounded Steve R. Carney of this city, who is president of the Western District Tobacco Warehouse company, which controls the best part of the trade in this end of the state. The men had had words about a small business matter, and Clark went away. He returned and called Carney to the door of his office of the local warehouse, and without a word opened fire with a revolver, shooting him twice in the bowels. Clark escaped arrest.

BOILER EXPLOSION.

Two Men Killed and Several Seriously Injured.

Wetmore, Mich., March 2 .- The boilers in Clark & Ackers' shinglemill exploded here, killing two men and seriously injuring several others. Hugh Long, a teamster, was instantly killed. Peter Morris, ex sheriff of Alger county, was found lying dead and badly maugled near the botler. George Moore was seriously injured and will probably die. Hiram Zants and Peter Brix also received serious injuries. Several others were slightly injured. The cause of the explosion is unknown.

Mrs. Winkler's Murderers.

Akron, O., March 2.-Jacob Winkler, the husband of Mrs. Nettie E. Winkler. who was mysteriously murdered at her home in Cleveland, believes that he can find the parties who are guilty of the crime. A detective claims that he has evidence which clearly proves the guilt of two parties. Their object was robbery. Mrs. Winkler resisted and they murdered her and then stole the cash. Winkler has great confidence in the detective. One of those who is supposed to be implicated is a woman.

ONE OF TWO WAYS. The bladder was created for one pur-

pose, namely, a receptable for the urine, and as such it is not liable to any form of disease except by one of two ways The first way is from imperfect action of the kidneys, The second way is from careless local treatment of other diseases CHIEF CAUSE. Unhealthy urine from unhealthy kid-

ney" is the chief cause of bladder troubies. So the worth, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed ofenale weakness or womb trouble o some sort. The error is easily made and and may be as easily avoided. To find out correctly, set your urine aside for twenty four hours; a sediment or settling indicates kidney or bladder trouble. 1898 MR. LONG'S OPINION Bushand Prings Suit For Damages and

Spain Did Not Participate In the Maine Disaster.

MAINTONOMAH AND KATAHDIN.

Two Ironclads Ordered Into Commission. Why the Maine Was Tied to a Bouy. Court of Inquiry Still Close Mouthed - McKinley's Close Friend Talks of War.

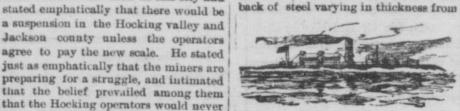

Washington, March 1.- The main interest in connection with the Maine inquiry yesterday centered in a statement by Secretary Long following the cabinet meeting, that in his personal opinion any official participation by the Spanish government in the blowing up of the Maine was now practically eliminated lieve that the association is offending from the situation. This statement was not of a formal or official character, and was made by Mr. Long as he walked away from the white house. As usual the various cabinet officers were besieged with inquiries as to the questions before the cabinet meeting and in response to these importunities the secretary rather casually summed up the National Sugar Refining company, the situation in a few words, stating that most of the time had been given to the outrages on colored postmasters in the south. Naturally the Cuban situation had been gone over, he said, but there were no actual developments, and he felt that public excitement over the subject had materially abated. Then he added the statement, in the same passing way, that any participation by the Spanish government in the blowing up of the Maine was practically eliminated in his judgment.

The Katahdin is a ram pure and simple, having in the way of weapons of offence nothing except her sharp steel beak and a few small rapidfire guns to keep off

boarders or torpedoboats. Why the Maine Was Tied to a Buoy. It was just learned at the navy department why the Maine was tied to a bony in Havana harbor instead of anchoring, a fact that has been the base for some of the theories as to the cause of the disaster. It is stated that not only is a man-of-war at a buoy in a much better place for quick service than when anchored, but it appears that if a ship casts her anchor in Havana harbor, so foul and polluted with yellow fever and other disease germs is the mud that adheres to it when it is hoisted, that the ship must go into quarantine upon her

return to any Florida port. The following telegram was received from Captain Sigsbee, now at Havana; Bache has left for Tortugas with all the wounded men-five in unmber-as | follows: Mattison, Cabill, Allen, Webper and Mack. ALLEGED SCANDAL

The Sale of the American Cemetery at Jerusalem, London, March 2 .- Truth, as a sequel

to the request made that its editor take steps to expose an alleged scandal in regard to the sale of the American cemetery at Jerusalem by the American Presbyterian board of foreign missions, says: The American missionaries and the consul were represented, the bodies were reverently exhumed and were removed. But the action of Lord Salisbury in having the pit in the English cemetery, in which they were reburied, opened, in order to recover the remains of an English officer, led to the ghastly discovery that all the bodies the officer nor any other body could be identified. Both the sale of the cemetery and the removal of the corpses appear to

POLITICAL BREVITIES

It is now less than a week before the ity republican primary, in which time the candidates, all of whom are worthy men, will see numerous republicans.

Some democrats in the county are saying that if D. H. Lubker, the hold over chairman, had had his own way the county committée would have been reorganized. His neighbors have been his most powerful advisers.

Frequently during the civil war President Lincoln had occasion to refer to the preservation of the Union, but never did he say anything about the union of the democratic party, for which Candidate Arbuckle pleads.

the democratic nomination for councilnan in the first ward is finding out that the previous promises he had made to him will probably not mean anything at the primary.

In that famous interview of candidate Arbuckle's he refers to the part President Lincoln took in the work of reconstruction, as if the great Emancipator was president all during that period. Consult your history.

As to Road Building.

There is room for improvement in our county in the mode of building roads. It is a great mistake to have the farmers work out their road tax in the fall of the year. To do road grading, the dirt put on a road in the fall is a disadvantage to it, as there is not time for it to pack before the wet season and freezing and thawing sets in, 1t is also questionable policy to build so many miles of Macadamized roads at once and pay for same by issuing long running bonds to provide for the payment of principal and interest, necessitating a heavy tax levy for several years; and as the bonds are usually disposed of in large blocks to eastern capitalists, (the smaller home investor having no chance at them) nearly all the interest goes abroad.

TO SAVE HIS BROTHER.

Frank Hill Will Plead Guilty to Rob-

Chicago, March 2.-Frank Hill will go to prison to save his brother. His friends have informed the state's attorney that the young man intends to plead guilty to robbery and voluntarily accept punishment to keep his brother, Robert J. Hill, from the penitentiary. The latter is now under sentence, having been convicted of robbing a saloon. At the trial several witnesses testified positively that Robert J. Hill was one of the robbers, while two witnesses said Frank Hill was the man.

The brothers look very much alike and it would be an easy matter to confuse their identity. It is arranged that the witnesses who identified Frank Hill during the trial shall go before the grand jury and procure his indictment. If he pleads guilty, as it is said he will, the act will release Robert J. Hill.

Mrs. Winkler's Murderers. Akron, O., March 2 .- Jacob Winkler, the husband of Mrs. Nettie E. Winkler, who was mysteriously murdered at her home in Cleveland, believes that he can find the parties who are guilty of the crime. A detective claims that he has evidence which clearly proves the guilt of two parties. Their object was robbery. Mrs. Winkler resisted and they murdered her and then stole the cash Winkler has great confidence in the detective. One of those who is supposed to be implicated is a woman.

ONE OF TWO WAYS

The bladder was created for one purpose, namely, a receptable for the urine, and as such it is not liable to any form of disease except by one of two ways The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases CHIEF CAUSE. Unhealthy urine from unhealthy kid-

ney" is the chief cause of bladder troubies. So the worth, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed ofemale weakness or womb trouble o some sort. The error is easily made and and may be as easily avoided. To find out correctly, set your urine aside for twenty four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect cents and one dollar. You may have a sample bottle and and pamphlet, both sent free by mail, upon receipt of three two cent stamp to cover cost of postage on the bottle.
